

November 2, 1987

Mr. Benjamin F. King  
933 W. Greenwood  
Springfield, Missouri 65807

Dear Mr. King

On a recent occasion, Surveillance and Enforcement personnel from this office investigated a complaint and found a substance resembling crank case oil had apparently been placed or discharged into the street curb line adjacent to the driveway to your property. This office has no way of knowing who might be responsible at this time.

Please be advised that if this spillage is due to any activities on your part this constitutes a violation of City, State, and Federal law. These laws contain severe penalties for the discharge of oil or petroleum products. This office maintains periodic surveillance throughout the corporate limits of the city, and will watch this area closely. If this discharge described is not due to any activity on your part, you can help significantly by reporting such activities immediately to this office.

If we can be of any help or can answer any questions, please do not hesitate to call us at 864-1924.

Yours truly,

Robert E. Corson  
Water Pollution Control Inspector III  
Surveillance & Enforcement
